EDUCATION

Bachelor degree

KJ Somaiya College Of Engineering

m Jun 2016 - Jul 2020

Mumbai, India

Major: Computer Engineering

• CGPA: 9.01/10

EXPERIENCE

Software Engineer | Contract Employee

Morgan Stanley

🛗 Jul 2020 - Present

Mumbai, India

- Part of the Foreign Exchanging Hedging team, involved in maintaining and renovating the existing legacy system to a modern tech stack.
- Maintain legacy hedging codebase by reverse engineering functions and adding new features.
- Build ETL pipelines using SQL and Pandas for Data Quality checks and reporting.
- Create Reporting Dashboard in Angular and integrated with other existing applications.
- Technologies: Angular, Java, Python3, SQL

Co-founder & Software Lead

Stealth Startup, Mumbai

m Oct 2020 - Dec 2020

Mumbai, India

- Create platform to enhance student-teacher communication by transparent, anonymous and moderated feedback
- Product and auxiliary feature formulation in collaboration with Sardar Patel Institute of Technology, Mumbai.
- Creating and evaluating tests to scout interns.
- Setup Git repo, CI and develop prototype.
- Technologies: NodeJS, Express, MongoDB, ReactJS 16.0

Summer Fellow

eSim, Fossee, IIT-B

May 2019 - Jul 2019

- Mumbai, India
- Port to python3, debug, document and add features to eSim3
- Reverse engineer nGHDL for ngspice-GHDL interfacing to enable digital code-models in ngspice
- Technologies: Python3, C

CO-CURRICULARS

2020 Teaching Fellow Gyanada Foundation

2019 Tech Team Head KJSCE Codecell

2018 Co-ordinator KJSCE Codecell

PROJECTS

Dis-Trie-Buted

- Idle Computational power volunteering using Distributed Computing, incentivising using Blockchain
- Using worker-nodes and socket programming to enable collaboration on SIMD problems via web browsers
- Technologies: Javascript, NodeJS, Solidity

Game Of Engineering

- In browser decision making game for freshers at universities
- Simulate each decision, and showcase outcome on - time, acads, energy attributes.
- Technologies: Javascript

Briefly

- Source based news in short
- Subscribe to your own news source and get news in short
- · Webapp, as well as a chatbot
- Technologies: Javascript, SASS, HTML, Python

Book-Bhandar

- Book catalouging social media website
- Create, Edit, Share, Comment & Bookmark Book Lists
- · Using open library API to fetch book data
- Technologies: NodeJS, SASS, Express, MongoDB

HONORS & AWARDS

2020 Finalist Smart India Hackathon

2019 Winner KJSCE Bloombox Ideathon

2018 Winner Mumbai Hackathon

2018 51 on-site ACM ICPC 2018

SKILLS

Over 5000 lines- Javascript, CSS, Python Over 1000 lines- Java, C, C++, SQL Utilities- Git, LaTeX, *nix Shell

HOBBIES

Music & Podcasts • Movies & TV Reading books • Sketching Video Games • Cycling
